Re: N2021-1

Dear Postal Regulatory commission:

My name is Mrs. Jamie Cotton. My husband, family and I are very concerned at the direction or lack of direction of the United States Postal Service. The Postal Service was and is set up to be a service to the American people. As a tax paying citizens, voters, citizens, business owners in the United States, the least we deserve is to be able to count on our postal service that is having yet another stamp increase but providing less service.

It is so disheartening Postmaster General DeJoy is still the Postmaster at all. After the **fraud**, when he attempted to derail the election by getting rid of sorting machines and slowing mail to a crawl. Mail, medication, checks, etc. are still not being delivered in a timely manor; which all effects my business.

I am not only asking you NOT to approve ANY of DeJoy's proposals but I am asking you to hold a vote and remove him at once so we can restore the Post Office's good name and service.

Thank you,

Jamie Cotton
